

Graph the Moving Teacher
Physical Science

Name _____
1 2 3 4 5 6 7 8

In this lab, you will be graphing the position of your moving teacher.
You will be given a stopwatch to record how long it takes for the teacher to ride a bike to your position.

You must record two pieces of information: Your distance and your time

Distance

Time

Use the space below to create a data table of the data taken by the other members of the class.

You will now take the information from above, and create a graph of distance vs. time (time is x axis)
